CPC Yellow Pages Work

Since Brent Cooper took ownership of the Directory, this has been the book we've used. They get delivered to all three counties in our area, which is very beneficial for our practice. This directory continues to grow in size & usage while the other books have faltered. CPC still offers lower ad rates with larger circulation than any other phone book in our area. Simply put: This is the directory that gets to the people and is used!

Sincerely,

John Daus,
Attorney
